Projects

- Feb 2022** [Wordle-Clash](#) Web App — *Node.js, Postgres, WebSocket, Express, JavaScript, Bootstrap*
Gives the popular single-player game Wordle a competitive twist.
 - Worked within a 3 person developer team using the Agile method, Trello and Figma to complete the project in 5 days
 - Used Node.js, PostgreSQL and JavaScript to create the user login, registration, two player mode, light/dark and High contrast mode
 - Utilized Socket.IO for real time updates in multiplayer mode
 - Node.js, PostgreSQL and JavaScript were also used to track game stats for individual and two player modes
- Jan 2022** [Aural Connectors](#) Web App — *JavaScript, HTML, CSS*
Finding concerts near you
 - Worked within a 3 person developer team using the Agile method and Trello to complete the project in 6 days
 - Used Google Maps, Google Places API, and JavaScript to provide concerts, hotels, and restaurants nearby
 - Used Ticketmaster API and JavaScript to provide information about concerts, venues and artists

March

S.O.S Cocktails Web App — Node.js, Postgres, React, Express, JavaScript, Bootstrap

Allows users to find drink recommendations based on ingredients they have

- Individual project I completed in 5 days
- Created a Postgres database using cocktail recipes from Smuggler's Cove and other recipes found through Google
- Used React and CSS to build the frontend UI
- Created the logo using Canva

March
2022

EV and Chill Web App — Node.js, MongoDB, Mongoose, React, Express, JavaScript, Bootstrap

Allows users to find electric vehicle charging stations and things to do nearby

- Worked within a 3 person developer team using the Agile method and Trello and completed the project in 14 days.
- Retrieved charging station info from Open Charge Map API to sync with our MongoDB database.
- Used Google Places API to display recommended activities nearby with location data from the charging station.

Work History

Jun 2019 -
Dec 2021

Real Estate Account Manager

America's First Choice Home Club, Marietta, GA - Georgia

- Help real estate agents and buyers select the best policy to protect their home by listening to their needs, and budget. This increased the sales of the Real Estate department by 10% and also increased retention rate by 30%

- Maintain relationships with existing clients and increased relationships with Real Estate agents by using effective communication skills, responding to emails and voicemails in a timely manner
- Managed over 200 accounts and worked with 3 different departments to help resolve issues and maintain client satisfaction.

**Apr 2016 -
Jun 2019**

Renewals Associate

FirstKey Homes, Marietta, GA

- Increased department renewal rate by 30% and maintained excellent renewal rate of 75%-90%
- Assessed tenants needs and help get them resolved quickly by maintaining strong communication with local market offices and helped to successfully renew their leases before expiration
- Maintained 4 monthly data analytic spreadsheets for Renewals Department tracking monthly retention rate, increase in profits, and reasons for tenant non-renewal.
- Extremely effective at time management by organizing my tasks by priority and blocking out my time to give enough attention to each task
- Resolved conflicts and negotiated mutually beneficial agreements between company and tenants.
